

Online Class Technology Decision Tree

Canvas Conference

Zoom Pro

WebEX with Canvas

Camtasia

Canvas Studio

Microsoft Teams

Pros

Canvas Conference the following features:

1. Already integrated into canvas. No additional software needed
2. You can have your students go into break out groups
3. You can use for office hours
4. Annotation

Zoom Pro has the following features:

1. Annotation
2. Record Meeting
3. Transcribe Meeting
4. You can record you meeting locally and upload it to box or canvas

WebEX with Canvas has the following features:

1. Annotation
2. Record
3. Can hold virtual office hours
4. Automatic transcriptions can be generated on recordings

Camtasia has the following features:

1. It is relatively easy to use, yet you can create more advanced videos with this tool
2. Can do voice overlay and integrate lecture materials for your video

Canvas Studio has the following features:

1. You can do a simple video recording right in canvas
2. You can add closed captions to your video

Microsoft Teams has the following features:

1. Record
2. Integrate your slide presentation
3. Virtual Whiteboard
4. Channels for teams to do collaborative work

Cons

Canvas Conference negative features:

1. Your recording of your conference will only be stored for 14 days
2. No download function for recorded conferences

Zoom Pro Negative features:

1. You need to have an additional license for this. Currently, the university is out of Pro licenses if you do not already have one

WebEX with Canvas negative features:

1. Instructors have to manually invite students one by one for live lectures
2. Can produce error messages during live sessions

Camtasia negative features:

1. You need to have an additional license to use this software
2. Simple to use, but can dip into your time if you want to integrate more advanced options

Canvas Studio negative features:

1. Limited abilities

Microsoft Teams negative features:
